## October Newsletter

### Greetings!

You are one of over **700 Dove Mountain Area Residents** who receive this Newsletter.

The **Dove Mountain Civic Group** is a nonpartisan organization made up of volunteer residents who monitor issues and share information that may be of interest to the Dove Mountain Community.

All residents and businesses operating in and adjacent to the Dove Mountain Community are invited to be members. [Join Email List](#)

### ***DONATIONS SUPPORT OUR ORGANIZATION***

Beginning Sunday night, September 25th from 8 pm to 5 am through early October, crews from Tangerine Corridor Constructors will begin working on utility crossings on Tangerine Road from Camino de Manana to Thornydale Road. The traveling public can anticipate the following impacts:

- There will be intermittent lane restrictions on Tangerine Road between Camino de Manana and Thornydale Road. Traffic will be guided through the impacted work area one side at a time. Flaggers will be on site to direct traffic through the work area.
- The speed limit will be reduced 25 mph.

- Expect delays.

Work is anticipated to continue for the next few weeks; however, no work will occur on the weekends. Daytime activities will continue to occur in concurrence with the night work.

Please ensure that dogs, horses and other animals are not in the construction zone - for the safety of all.

If you have further questions, please contact Kristi Shepherd at (520) 623-3073 or [info@tangerineroad.info](mailto:info@tangerineroad.info).

## Wildlife Corridors to be built beneath the Tangerine Road

This week, Marana Town Council approved funding for five wildlife corridors beneath the Tangerine Road expansion project between Dove Mountain Boulevard and La Cañada Drive. The project will involve the installation of five medium-sized mammal crossings that will accommodate animals such as bobcats and mountain lions. A report from the Arizona Game and Fish Department identified recommended locations for these crossings based on open space connectivity, existing and future development, and hydraulic design.
