Marana Needs Volunteers

Home Owner Associations:

Marana-area volunteers are needed for a bat and hummingbird feeder monitoring study.

[The Highlands at Dove Mountain HOA](#)

The study is used to determine the presence of lesser long-nosed bats in the area. It's easy and interesting to volunteer on this citizen science project. Monitor your feeder two or three times per week until the bats leave, measuring the level of fluid in the feeder just before the sun goes down and again when you rise in the morning. Then input your data on a website.

[Dove Mountain Association](#)

Those who would like to participate in the study should contact Ted Fleming at ted@sonaura.net or Janine Spencer at jspencer@marana.com.
